

# TECH CLUB

**Now Enrolling:**

January 20th-March 10th  
Tuesdays, 3:10PM-4:10PM  
K - 3<sup>rd</sup> and 4<sup>th</sup> - 8<sup>th</sup> classes available!

## Grades K-3: Intro to Coding with Scratch

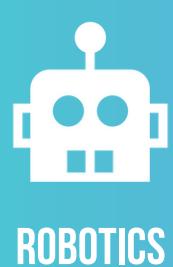

Students will explore programming fundamentals using Scratch. Through interactive projects, they'll design animations and mini-games, learning sequencing, logic, and creative storytelling—all while having fun!

## Grades 4-8: Game Development with Construct 3

Students will dive into game design using Construct 3, a visual coding platform used by professionals. They'll learn how to build their own 2D video games while exploring key programming concepts like loops, events, and variables in a beginner-friendly format.
